Abstrak <i>Abstract</i>	<p>Avifauna are the birds, or all the kinds of birds, inhabiting a region. Aviary is a large cage, building, or enclosure for keeping birds in. Aviary park design is to create a space for recreational and leisure for families as well as learning for the young generations. The aviary design should allow a free flight space and natural environment for the avifauna and respecting the habitats for varieties of species. The site planning and building proposal of Muar Avifauna Aviary park will consist facilities and space which can help individuals experience a natural habitat for the avifauna and learning and exploring the knowledge and the space should beneficial to the surrounding community. The building proposal must cater the needs of space and facilities up to 512 person.</p>																

Keyword <i>Keyword</i> (max 5 word)	Avifauna, aviary, building design, history, sustainable design	
Objektif Projek <i>Project Objectives</i>	<ol style="list-style-type: none"> 1. To create a workable space for public usage and recreational space in Muar area. 2. To design a space that response to issues base on site inventory and analysis. 3. To propose and design a masterplan and building of avifauna Aviary Park in Muar base on project requirements and site analysis. 	
Skop Projek <i>Project scope</i>	Designing and planning a building design and master plan for Muar Avifauna Aviary Park that cater the needs of surrounding communities and responding to site inventory and analysis as well as respecting the context in order to create workable space and beneficial to communities as well as the sake the of avifauna species.
