Abstrak The tittle of our project are 7 Day Pill Boxes. This project is a for solve a p	oroblem
Abstract of certain people that have problem to remember their need to take medica	
the right time. Especially, to the elderly who have a memory problems to t	ake
medicines every day. The objective of this project is to built an pill box wi	
reminder that can easier remind to consumer. Other than that, we will disc	
about the advantages, disadvantages and what is the function of pill remine	
There are many types of pill reminder that we already researches, it almost	
good many choices for consumer. Next, this project works using 9V powe	
supply. Moreover, we also put the project circuits are used in projects such	
Arduino, Timer, GSM and LCD Display. Then, we write our project circuit	

	operations. Lastly, we hope in the next semester, we will be making a change to upgrade our project to become better and to provide facilities to user and the objective can be achieve.		
Keyword <i>Keyword</i> (max 5 word)	Menghasilkan sebuah kotak Pill Reminder		
Objektif Projek Project Objectives	 Aged people who has trouble remembering to take their pills each day. Aged people can't manage time to eat medicine. Their children so far away to take care to take medicine. 		
Skop Projek Project scope	 Our project is for seniors aged 60 years and over that who have a memory problem to take medicines daily. The project comes with Arduino and the others equipment such as box. size is 20x12cm. The project is also equipped Arduino with GSM that work to control timer hours (3 times daily).
