OVERVIEW

Think you can design your way to victory? Want to showcase your design talent internationally? This is your chance to stand out bright and loud.

We are inviting all young interior designers and architects to apply what they have learnt from classrooms into real live showrooms. Provoke us with outstanding ideas and designs, go against the norm and never stop asking 'Why not?' Rethink an existing site and recreate it into something that we've never seen before. Don't forget to incorporate eco-friendly ideas for a healthier, happier tomorrow and get ready for a colourful future ahead.

VISSION

The Nippon Paint Young Designer Award was first launched in 2008, with the aim to inspire students to be more innovative, and motivate them to a higher degree of professionalism.
At Nippon Paint, we acknowledge the abundance of talent in this creative industry and provide an avenue for them to design responsibly. We are committed to cultivate and strengthen the creative minds of the interior design and architectural students in our industry.

It is our fervent hope that the Nippon Paint Young Designer Award would be the inspiration and the spark that brings forth the best in our local interior design and architectural students so that their work would eventually gain recognition in the local and international arena.
